FOREWORD

In spite of modern scientific methods of communication a great confusion of thought prevails in our modern world, largely due to two main factors-

- (1) The prevailing "journalistic sense", concerned with news value rather than an accurate pen & word picture, which is factual.
- (2) The human weakness- due to immature human minds- of the mis-interpretation of words used to convey meanings, from one mind to another....Those words are twisted, sifted & re-assorted to fit preconceived ideas in the mind of those receiving the message.

Because of the foregoing & associated factors only those of our friends who are in tune with our own "wavelength", either clairvoyantly, intuitionally, or other avenues of extra-sensory perception have really known what has been happening since we came to "SHALAM", 6 months ago & what our real aim, objective & motive is.

Several of our friends, in the Eastern States & abroad have written to us, asking for specific details of what we hoped to achieve & our methods to attain to the objective,

The initial drive which was essential in getting the practical foundations laid, having abated somewhat, it seemed that an opportunity had been presented to us to clarify the position, so far as we are able.

Hence, Mary received an impulse to take up her pen & briefly give, to those interested, the sequence of events which led up to what appeared to be such drastic changes in her accepted "Way of Life".

After 6 months of practical experience in taking control of re-moulding her environment, she is now in a position to express an opinion as to the relative merits of the New & the old..The Natural v the Artificial- GOD'S "WAY" v Man's "Way"..

We send you this message of Hope & Joy for the New-Year in the hope that it will inspire you to pursue your investigations into which is THE PRACTICAL "WAY" to produce the results you NEED & WANT.

Dear Friends-

It was on the 15th. of Nov 1962 that I first met Fred Robinson, at a House-party, at my home, at Carlisle...

It was actually a Birthday Party for one of my "Bridge to Freedom" friends; so, while it was a gay occasion there was also a spiritual atmosphere pervading...

Fred had only been in the West a few days.. He was not happy with the food where he was staying, and he was looking for a room..

My family & I were keenly interested in the "Message" he had brought, so it was arranged that he should stay with us for a week or two until it was decided what he should do.

It was during those first few days that it began to dawn on us that we had been brought together for a purpose... Ideas & theories that I had believed to be my own; that I believed had originated in my own mind were being expounded by Fred. . To me this was uncanny, & had to be investigated...

It was very encouraging to have someone like this come along & confirm my own beliefs in such a positive way .Of course I realise now that the greater part of our thinking is not our own thoughts at all . The theories I held were inspirations & if I could be inspired with an idea so could Fred be inspired with the same idea .Fred & I were sufficiently on the same wavelength, with the same tendencies &
